Gable House Nursery are Bridlington's premier childcare providers, offering a winning combination of exceptional care and illuminating educational opportunities for your little ones. Owned by Fiona and Chris Courtland since 2003, this exceptional nursery has grown to become the first choice for local families, offering unbeatable childcare at reasonable prices. Over the course of more than two decades, Fiona and Chris have continually invested in upgrading and refurbishing the nursery to ensure that it provides the highest quality facilities, resources and curriculum opportunities, all aimed at nurturing and inspiring young minds. The owners' passion for early childhood education is evident throughout every aspect of the nursery's operation, from the meticulously designed learning environments to the enthusiastic engagement of its team of highly qualified staff.

One of the nursery's key strengths is its bespoke curriculum, which seamlessly integrates indoor and outdoor learning experiences. The nursery's approach is built around encouraging children to become curious and active learners, which is regularly achieved through an emphasis on connecting them with nature via planned outings and trips. Outings in the nursery's own minibus to local beaches, forests, parks and places of interest are a fundamental aspect of the learning experience at Gable House. These trips provide opportunities for investigative play, where children are guided by the highly skilled staff to explore their surroundings and engage with the natural world, enhancing curiosity but also helping children develop a lasting appreciation for the environment.

The judging panel was impressed by the first-class childcare on offer at Gable House Nursery. For more than 20 years, Gable House Nursery has maintained a flawless history of Ofsted inspections, consistently delivering excellence in all areas of early years education and care. This ongoing recognition from Ofsted, alongside numerous other schemes, is a testament to the dedication and professionalism of Fiona, Chris and their team. It should come as no surprise that Gable House Nursery has become a popular choice for many families in the region, with its reputation for excellence drawing parents who are seeking the best start for their children.

Gable House Nursery provides a unique curriculum, developing children's curiosity and development through outstanding early years care and education.
